Experience

Vocational.....

Stormsaver Ltd

Personal Assistant

01/2020–02/2020

Stormsaver is the UK market leader in the design and manufacture of rainwater harvesting systems. I was working on a fixed-term contract, alongside the product design engineer on new upcoming updates. Mainly working on the new website using the company's CMS. Attention to detail and speed was a must. Also gained experience on design software like Adobe InDesign and DraftSight by helping update information on technical manuals and data sheets of current products. Assisted colleagues by providing technical support when possible.

Here Technologies

PA/Project Coordinator

02/2014–09/2014

Here Technologies is a company that provides mapping and location data and related services to individuals and companies. My main responsibility was analysing, organizing and importing data using the company's graphical user interface. It was critical to ensure correct data calculation due to some of the company's services being based on data.
